**Relevate Health 2023-2025 PharmD Fellowship
Medical Affairs/Medical Communications**

About Relevate Health:

As a medical communications agency, we work with hundreds of brands within the pharmaceutical industry, covering a wide range of disease states and project types.

At Relevate Health, we focus on local and national data to drive HCP engagements.

**To be relevant, your brand needs the right message. Delivered to the right audience.
At the right time. In the right place. Consistently and continuously.**

WHAT WE DO

HCP engagement powered by data

At Relevate Health, we use the power of data science capabilities to create omnichannel marketing campaigns with maximum local impact. Our custom agency services and tech-powered products use data-driven insights to fuel the right message at the right time.

From brand challenges to competitive edge

Connecting with HCPs presents a host of common challenges. We're poised to help you overcome each one and truly connect with them throughout the lifecycle of your brand.

WHO WE HELP

Empowering healthcare companies to connect

Relevate Health helps a variety of life sciences brands connect with HCPs on the local level with the right messages delivered at the right times. We partner with 19 of the top 20 pharmaceutical companies* and hundreds more.

*Fierce Pharma, March 2021

Our healthcare marketing strategy helps marketing decision makers in these industries launch brands and create measurable growth.

Fellowship Overview:

The two-year Medical Affairs/Medical Communications Fellowship Program is designed to provide PharmD graduates with a core foundation in medical affairs and communications but also contributes to real-world experience across a variety of medical communication agency departments.

Fellows will be able to enhance their understanding of the key roles in medical affairs, communications, and project management within the Relevate Health business unit.

Additionally, this fellowship program offers the opportunity to gain experience in multiple aspects of medical education through the Texas Tech University Health Sciences Center (TTUHSC) School of Pharmacy Teaching and Learning Curriculum Program.

Fellows will work in multiple areas and gain experience in the following:

- **Medical Writing**
- **EHR Marketing Strategy**
- **Medical Affairs Content**
- **Medical, Legal, Regulatory Reviews**
- **Medical Moderator for Key Opinion Leaders (KOL) Video Shoots**
- **Client Relations**
- **Project Management**

Application Process:

Relevate Health is recruiting three fellows for the upcoming 2023-2025 Fellowship Program.

Fellows are selected on a national and competitive basis. Candidates must have completed a Doctor of Pharmacy (PharmD) program from an ACPE-accredited College of Pharmacy before July 1, 2023.

We will be offering virtual interviews to candidates on a rolling basis. Candidates who are interested in our fellowship program are encouraged to submit applications as early as possible.

Please note that all candidates must have proper authorization to work in the United States for the full two-year term of the Medical Affairs Fellowship Program. Relevate Health does not provide visa sponsorship or transfers for this position.

Deadlines

Please submit the following by email to fellowships@relevatehealth.com by Sunday, November 27, 2022 (11:59 PM EST):
