About Woven Health Collective

Woven is an integrated biopharmaceutical marketing, strategy, and scientific communications company that partners with clients to translate complex science into powerful stories that drive impact. With a unified approach, deep scientific expertise, and cutting-edge technology, Woven delivers novel, client-centric solutions from development through launch, commercialization, and market expansion.

About Scientific Communications

We don't just publish papers; we build enduring partnerships. Our scientific expertise and integrated approach ensure research drives meaningful conversations and advances patient well-being. From strategic planning to post-publication amplification, we're with our partners in every step. With a collaborative spirit and over 25 years of experience, we ensure publications and communication plan delivers maximum value throughout the product life cycle.

Fellowship Program Overview

Woven Health Collective is offering a fully remote, one-year Medical Communications Postdoctoral Fellowship starting July 2026. Fellows will gain exposure to various therapeutic areas and treatments throughout many phases of development. The program also offers additional leadership, networking, and professional development opportunities through partnership with the Industry Pharmacists Organization (IPhO).

Fellowship Program Goals and Opportunities

- Develop a foundation for a career in medical communications through training and exposure to various aspects of the industry
- Learn how to work in a team-based environment and consistently deliver projects on deadline and within budget
- Work closely with medical writers, editors, graphic designers, scientific managers, and meeting planners and interact with clients at meetings
- Utilize library services and medical librarians to research subject matter of importance for our clients and their products
- Participate in International Society for Medical Publication Professionals (ISMPP) events
- Gain exposure to networking and professional development opportunities through IPhO

Benefits and Additional Opportunities

The Fellow will receive a competitive stipend and benefits package, including:

- Medical, dental, vision, and life insurance package
- 5 days of vacation
- At least 9 paid holidays during the year, 5 sick days, and 1 floating holiday

Upon successful completion of the fellowship program, Woven Health Collective will award the Fellow a professional certificate.

Therapeutic Experience

By working with various companies, the Medical Communications Fellow will have the opportunity to expand their breadth of experience in many therapeutic areas including:

- Cardiology
- Endocrinology
- Geriatrics
- Hematology
- Immunology
- Infectious Disease
- Men's Health
- Nephrology
- Neurology
- Oncology
- Pain
- Rare/Orphan Disease
- Schizophrenia
- Women's Health

Fellowship Director

Jonathan Mitchell, PharmD, CMPP™

Senior Medical Writer
Director, Medical Communications Fellowship

Membership in the American Medical Writers Associations (AMWA), International Society for Medical Publication Professionals (ISMPP) Membership

Dr. Jonathan Mitchell is a Senior Medical Writer at Woven Health Collective where his duties include work on scientific abstracts, posters, and manuscripts, educational slide decks, publications planning, key opinion leader searches, advisory boards, and executive summaries.

Jonathan received his PharmD from the University of Findlay College of Pharmacy in Findlay, OH, where he performed research in biology and medicinal chemistry. Following this, he completed a 1-year postdoctoral medical communications fellowship with MedVal/PharmaWrite (now known as Woven Health Collective) and served as Adjunct Clinical Instructor at the University of the Sciences College of Pharmacy in Philadelphia, PA. During his time as an instructor, he led journal club discussions and guided students during scientific literature searches.

Jonathan joined Woven Health Collective as a medical writer in 2020 and has experience with projects in hematology/oncology, neurology, renal disease, pain management, and men's health.

Current Fellow

Tanmaya Phanda, PharmD

Postdoctoral Fellow
Rutgers University, Ernest Mario School of Pharmacy
Current Co-Lead of the IPhO Annual Meeting Committee

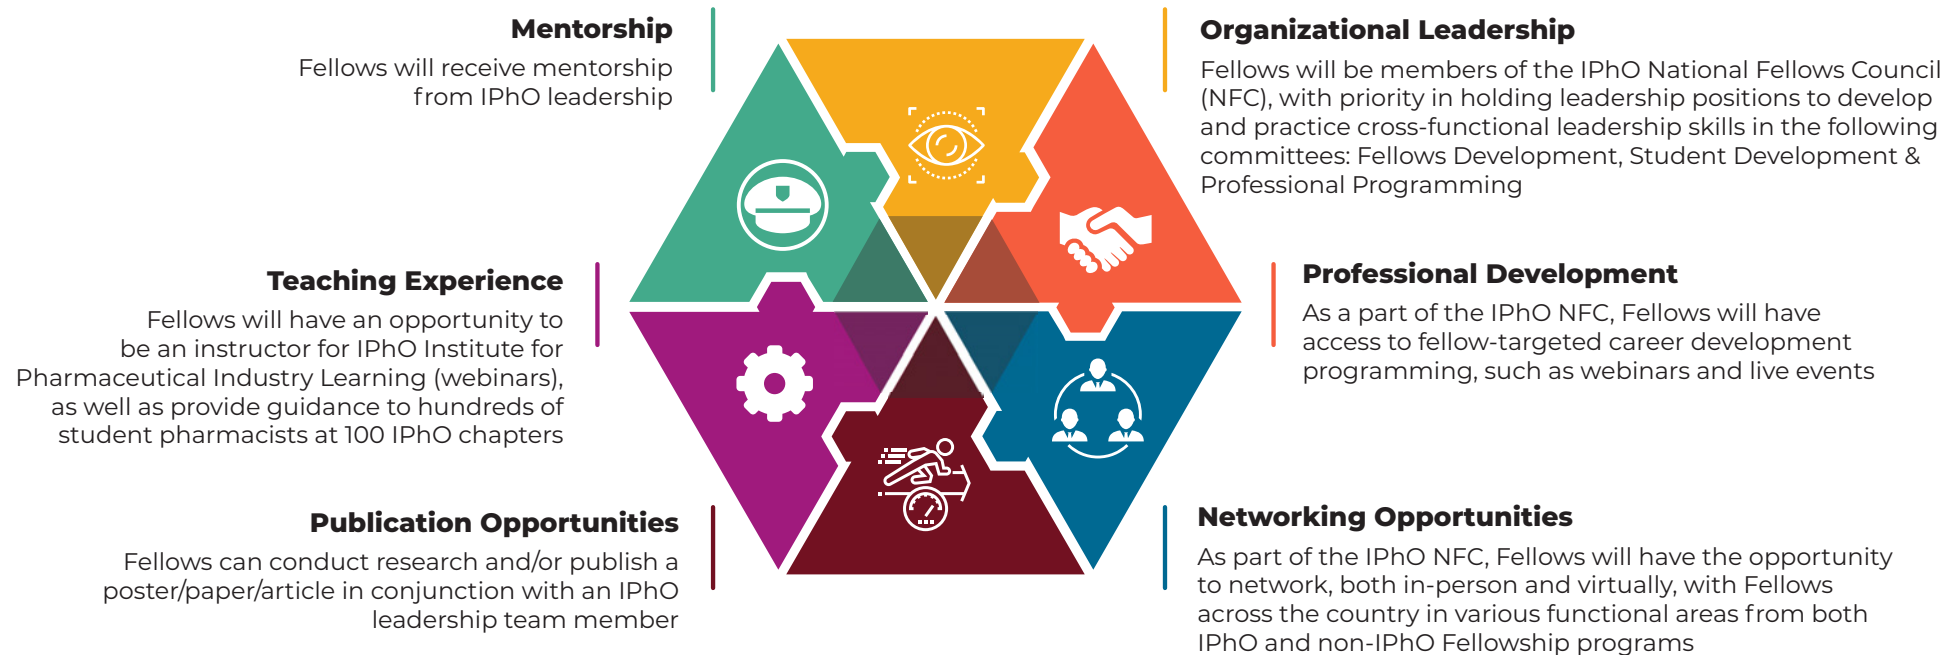

Tanmaya Phanda is the current Medical Communications Fellow at Woven Health Collective where he will be focusing on building his medical writing and publication planning skills across various therapeutic areas. In addition, Tanmaya is a part of the National Fellow Council (NFC) with IPhO as a Co-Lead of the Annual Meeting Committee. In this role, he will assist organizing the IPhO Annual Meeting 2025 in

September so that industry fellows can share insights for upcoming students and fellowship candidates.

Tanmaya earned his Doctorate of Pharmacy from Rutgers University, Ernest Mario School of Pharmacy, in New Jersey. Following graduation, Tanmaya worked as a medical writer for the brand development team at InpharmD. During his time at InpharmD, he created landmark trial summaries and infographics for the company's website and social media platforms.

The Woven Health Collective Medical Communications Fellowship Program has a collaborative partnership with IPhO. Through IPhO, the Fellow has the option to gain exposure to industry leadership, networking, and professional development opportunities.

Opportunities Within IPhO Partnership

Candidate and Application Requirements

To be eligible, candidates must graduate from a Doctor of Pharmacy Program, become licensed, and possess good communication and interpersonal skills.

✓	All application materials must be submitted by December 19, 2025
✓	Curriculum Vitae
✓	Letter of Intent
✓	Official College of Pharmacy Transcript Please submit electronic official transcripts at https://clinicalmind.hrmdirect.com
✓	Three (3) Letters of Reference Letters should be individualized and submitted at https://clinicalmind.hrmdirect.com
✓	Writing Sample Research abstract, poster presentation, article, drug monograph, etc. submitted at https://clinicalmind.hrmdirect.com

Application materials can be submitted at <https://clinicalmind.hrmdirect.com>, after the application goes live on October 1, 2025.

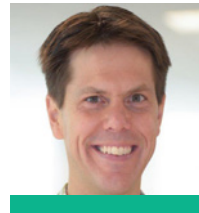

Fellowship materials may also be sent to fellow@wovenhc.com.

Application Timeline

- Initial phone interviews will be offered to eligible candidates on a rolling basis after a CV, a letter of intent, and 1 writing sample are received
- Video interviews will be scheduled with competitive candidates on a rolling basis following phone screening
- Competitive candidates will be asked to complete a writing test
- Virtual final interviews will be held in early January on a rolling basis, during which candidates will be asked to deliver a presentation to staff

Mentoring Team

Jeff Stumpf, PhD, CMPP™

Executive Vice President

Membership in International Society for Medical Publication Professionals (ISMPP)

Dr. Jeff Stumpf is the Executive Vice President of Woven Health Collective (previously known as MedVal/PharmaWrite), where he leads day-to-day operations, oversees all account teams, and strategizes company growth. He holds a PhD in Genetics from Indiana University, Bloomington, IN, and is a Certified Medical Publication Professional (CMPP) through ISMPP.

With extensive experience in medical communications, Jeff has successfully led teams in developing a wide range of deliverables, including publication plans, scientific platforms, literature analyses, abstracts, manuscripts, posters, systematic reviews, consensus documents, slide presentations, infographic brochures, video abstracts, and white papers. His expertise spans various therapeutic areas, such as HIV; breast cancer; rare diseases, ophthalmology; osteoporosis; oncology/bone metastases; and inflammatory, pituitary, and metabolic diseases.

Jeff is also skilled in facilitating advisory boards, strategic workshops, and publication planning meetings. Before transitioning to medical communications, he conducted over 10 years of microbiology and genetics research, focusing on human mitochondrial and bacterial DNA replication and mutagenesis.

Mentoring Team

Megan McEntire, PharmD, CMPP™

Director, Scientific Communications

Membership in the American Society of Health-System Pharmacists (ASHP), American Medical Writers Association (AMWA), Industry Pharmacists Organization (IPhO), and International Society for Medical Publication Professionals (ISMPP)

Previous service on the ISMPP Membership Committee

Dr. Megan McEntire's current role as Director of Scientific Communications enables her to interact with clients and key opinion leaders on a personal basis to facilitate dissemination of medical knowledge. She has experience in publication planning, scientific manuscripts, advisory board meetings, competitive surveillance reporting, as well as gap analyses and key opinion leader (KOL) analyses. With over a decade of experience, she has worked in a variety of therapeutic areas including hematology, oncology, rare diseases, bipolar disorder, infectious disease, rheumatoid arthritis, osteoporosis, pain management, and women's health. Megan graduated from East Tennessee State University, completing a Bachelor of Science in Chemistry, with a concentration in Biochemistry, and worked in the chemical industry. However, her passion was to help people in the healthcare field, so she returned to further her education at the Bill Gatton College of Pharmacy at East Tennessee State University, where she received her Doctor of Pharmacy degree. Megan completed the MedVal/PharmaWrite (now known as Woven Health Collective) Medical Communications Postdoctoral Fellowship Program. She has served as a preceptor for APPE PharmD students.

Susan Martin, PhD, CMPP™

Director, Scientific Communications

Membership in International Society for Medical Publication Professionals (ISMPP)

Dr. Susan Martin engages with clients and key opinion leaders to communicate research results and medical information effectively and clearly across a variety of formats. She provides oversight for the development of traditional print and electronic publications, systematic literature reviews, abstracts, posters, slide decks, and Medical Science Liaison presentations. She also partners with clients to develop publication plans, strategic communications platforms, and advisory boards. Dr. Martin has managed publication activities across the pharmaceutical drug development lifecycle (preclinical through post-launch), including health economics and outcomes research. Dr. Martin has worked in the medical communications and publication planning field for over a decade and has earned her Certified Medical Publication Professional (CMPP) credential through ISMPP.

Mentoring Team

Sandra M. Aguero, PharmD, BCPS

Senior Medical Writer

Membership in American Medical Writers Association (AMWA)

Dr. Sandra Aguero collaborates with clients and healthcare professionals to prepare abstracts, posters, manuscripts, and slide decks for presentation of scientific information. She is experienced in delivering executive summaries for advisory boards and particularly enjoys conducting literature searches and providing surveillance reports when requested. She is also passionate about mentoring new writers and working with learners. Dr. Aguero received her PharmD from the Ernest Mario School of Pharmacy at Rutgers University and completed a PGY1 pharmacy residency at Einstein Medical Center the following year. Before joining MedVal/PharmaWrite (now known as Woven Health Collective), Dr. Aguero worked as a Clinical Pharmacist in the areas of general medicine and critical care. She was Clinical Assistant Professor at the Ernest Mario School of Pharmacy at Rutgers University, Piscataway, NJ, with a clinical practice at Hoboken University Medical Center. She went on to serve as Clinical Pharmacist in the Medical Intensive Care Unit at Einstein Medical Center, Philadelphia, PA, and subsequently became Clinical Manager, overseeing the clinical services and pharmacy residency program at Einstein.

John Watson, PhD

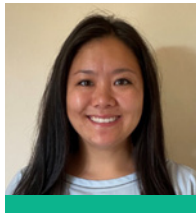

Senior Medical Writer

Dr. John Watson is a senior medical writer with experience in the development and publication of primary and secondary peer-reviewed articles; abstracts, posters, and slides for major medical congresses; and other written materials such as global scientific platforms and lexicons, advisory board and steering committee reports, MSL slide decks, and medical briefs. John completed his postdoctoral studies at the California Institute of Technology, Pasadena, CA, where he identified novel G-protein heterotrimeric protein subunits and characterized their signaling properties, and developed G-protein subunit-specific polyclonal antibodies for Western blot and tissue-binding experiments. He received his PhD from the University of California, Los Angeles School of Public Health, for research on molecular mechanisms in CYP1A1-mediated chemical carcinogenesis. Prior to becoming a medical writer, John was a senior research investigator in the Lead Discovery and High-Throughput Screening group at Bristol-Myers Squibb, Wallingford, CT, where he specialized in ligand binding and signal transduction assays for G-protein-coupled receptors as drug targets for neuroscience, immunology, and oncology, as well as for metabolic and cardiovascular diseases. He also prepared preclinical study reports to support NDA submissions.

Mentoring Team

Elizabeth Schoelwer, PharmD

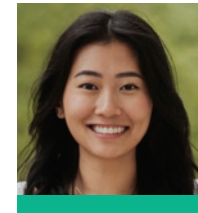

Medical Writer

Membership in American Medical Writers Association (AMWA)

Elizabeth Schoelwer received her PharmD from the University of Findlay College of Pharmacy, Findlay, OH. Following this, she completed a 1-year postdoctoral medical communications fellowship with MedVal/PharmaWrite (now known as Woven Health Collective) and served as Adjunct Clinical Instructor at the University of the Sciences, in Philadelphia, PA. During her time as an instructor, she was involved in small group teaching, precepting APPE students, and delivering a CE presentation to pharmacists. Elizabeth joined the team as a medical writer in 2022 and has experience with projects in rare diseases, hematology/oncology, neurology, men's health, and pain management. Medical writer duties include developing posters, abstracts, manuscripts, slide decks, publication plans, and advisory board executive summaries.

Samantha Mei, PharmD, MS

Associate Medical Writer

Membership in American Medical Writers Association (AMWA) and International Society for Medical Publication Professionals (ISMPP)

Dr. Samantha Mei, PharmD, MS, earned her Doctor of Pharmacy and Master of Science in Pharmaceutical Sciences from the University at Buffalo. She is currently an Associate Medical Writer following the completion of her postdoctoral fellowship. She has experience developing abstracts, posters, manuscripts, and presentations in the neurology space. Samantha previously served as a preceptor for Advanced Pharmacy Practice Experiences (APPE) students from Saint Joseph's University and was a Co-Lead in the Professional Programming Committee for the Industry Pharmacists Organization, where she organized monthly professional development webinars for postdoctoral fellows. Samantha is an active member of the International Society for Medical Publication Professionals (ISMPP), and presented her research on patient authorship at the ISMPP 2025 Annual Meeting. She is also a member of the American Medical Writers Association (AMWA), where she will present a poster on publication metrics at the 2025 AMWA Annual Meeting.

Mentoring Team

Elena Dang, PharmD

Associate Scientific Manager

Currently serves on the International Society for Medical Publication Professionals (ISMPP) Metrics and Insights Committee

Dr. Elena Dang is an Associate Scientific Manager with growing experience in utilizing publication management software to ensure the timely generation and delivery of scientific abstracts, posters, oral presentations, and manuscripts. She earned her PharmD from the University of Texas at Austin, where she held several local and national leadership roles, published two manuscripts, and presented several posters at conferences. During this period, she also developed her skills as a scientific content writer, authoring numerous patient-facing articles on allergies and over-the-counter (OTC) products. Elena completed the Medical Communications Fellowship at MedVal/PharmaWrite (now known as Woven Health Collective), gaining invaluable medical writing experience in hematology, oncology, and cell and gene therapy. She precepted APPE students, served as a Co-Lead of the IPhO Annual Meeting committee, and spearheaded and presented research on AI and Plain Language Summaries at the International Society for Medical Publication Professionals (ISMPP) Annual Meeting in 2024. Additionally, she has contributed to the AI Task Force for ClinicalMind (now known as Woven Health Collective), exploring innovative applications of artificial intelligence in medical communications, and helped generate internal education on publication extenders and web-based metrics.

Stephen Bublitz, ELS

Senior Medical Editor

Membership in Board of Editors in the Life Sciences (BELS) and American Medical Writers Association (AMWA)

Stephen Bublitz is a Senior Medical Editor, who edits, formats, fact-checks, and submits manuscripts, abstracts, posters, and other medical communications materials. After completing a Bachelor of Science degree with a double major in English and History at Central Michigan University, Mount Pleasant, MI, Stephen was trained as a copy editor at the American Geophysical Union, the world's largest organization of Earth and space scientists. After over a decade as a freelance editor, Stephen entered the Medical Communications field as a scientific editor where he participated extensively in editing projects for scientific platforms, MSL training modules, MSL slide decks, advisory board materials, FAQ documents, PI/SmPC decks, and product launch materials.

He is a certified Editor in the Life Sciences (ELS) from the Board of Editors in the Life Sciences (BELS), where he is also a board member and chairperson of the Professional Development Committee. In addition to the Fellowship Mentoring team, he participates on a variety of initiatives at MedVal/PharmaWrite (now known as Woven Health Collective). He also is a member of the American Medical Writers Association (AMWA), where he serves as a member on the AMWA Annual Conference Committee.

Fellowship Alumni Testimonials

What attracted you to this fellowship program?

“The diversity in learning really stood out. One day I would be doing work around publications and oncology and the next day I would be doing work in scientific communications around immunology. I was able to put on many hats during my fellowship and this ultimately prepared me with the foundational skills required to succeed Medical Communications.”

How would you describe the mentorship you received during your fellowship?

“I received great mentorship across many great colleagues during my fellowship. I had mentors who were approachable, invested in my success and available to provide feedback regularly. This helped me stay focus, organized and confident in the projects I was currently working on.”

—Christopher Rosero, PharmD

*2020-2021 Medical Communications MedVal/PharmaWrite
(now known as Woven Health Collective) Fellow
Currently Senior Manager, Global Medical Affairs at Gilead Sciences*

How would you describe the mentorship you received during your fellowship?

“The mentorship was incredibly supportive and tailored to my growth. My preceptor and mentors provided both technical guidance, such as refining writing for different audiences, and professional development support. They encouraged me to take initiative of projects while providing constructive feedback, which made me feel both challenged and supported.”

What was your memorable highlight from your fellowship experience?

“One highlight was leading the development of a congress poster from start to finish, including drafting the content, designing the layout, and coordinating author feedback. Seeing the poster presented at a national conference was rewarding. Another memorable moment was mentoring APPE students. I enjoyed guiding them through projects and sharing insights from my own experience.”

—Samantha Mei, PharmD, MS

*2024-2025 Medical Communications MedVal/PharmaWrite
(now known as Woven Health Collective) Fellow
Currently Associate Medical Writer, Woven Health Collective*
