

**PHARMD MEDICAL AFFAIRS FELLOWSHIP**

**MESSAGE FROM  
RYAN ARNOLD, DO  
Chief Medical Officer**

Thank you for your interest in our Medical Affairs Fellowship program. BioCryst Pharmaceuticals is a commercial-stage biotech company that is committed to delivering extraordinary medicines that help patients live ordinary lives. At BioCryst, we are passionate about advancing novel therapeutics for patients with rare and serious diseases. Founded in 1986, BioCryst is headquartered in Durham, North Carolina with European headquarters in Dublin, Ireland, and a Discovery Center of Excellence in Birmingham, Alabama.

At BioCryst, we aim to create a work environment that encourages people to be who they are while delivering great results. By working together in this way, we can focus on what matters most. We know that what we do is important, and we recognize that how we do it is crucial to our success as a company.

We are a patient-focused company advancing therapies for rare diseases. We do it together. No one person is more important than the whole. We are unified by our commitment to making a difference and the reality that we need to go fast because patients are waiting.

## **MEDICAL AFFAIRS FELLOWSHIP: ABOUT**

This two-year Medical Affairs fellowship offers the fellow an opportunity to prepare for an industry role by providing practical training, experience, and exposure across a wide variety of functional areas. The program will allow the fellow to develop and strengthen skills within Medical Affairs, including but not limited to Medical Information and Medical Communications, Field Medical, Grants & Research, Publications, as well as opportunities to support cross-functional projects involving legal, regulatory, compliance, clinical development, marketing, market research, clinical pharmacology, and pharmacovigilance.

## **Meet The Team**

### **TYLER STONE, PHARM D**

**Associate Director, Global Medical Communications & Operations**

**Director of Fellowship Program**

Tyler joined BioCryst in December 2021, and specializes in global medical information and strategy within medical affairs. With a PharmD fellowship that served as a gateway to industry, Tyler has navigated through key medical information responsibilities, managing promotional and non-promotional review, and developing strategic medical affairs plans. Tyler excels in the diverse array of responsibilities integral to this critical role and function. Tyler graduated from Albany College of Pharmacy and Health Sciences and brings a wealth of knowledge and expertise to the dynamic landscape of the pharmaceutical industry.

**MARY MALITO, MBA**  
**Executive Director, Global Medical  
Communications & Operations**

Mary joined BioCryst in August 2022 and oversees the teams responsible for communications and global shared services that support GMA, including publications and medical communications, medical information, grants/IIS, and operations. Prior to BioCryst, Mary has led commercial and brand marketing teams for over 12 years and held roles in regulatory advertising and promotion and corporate communications at small and large biotechs. Mary has a MBA in Marketing from Northeastern University and a MA in Organizational & Corporate Communications from Emerson College.

**TAM KHUU, PHARMD, BCPS**  
**Executive Director, US Medical Affairs**

Tam joined BioCryst in August 2019 as the company's first Medical Science Liaison. Tam now leads and mentors the US Medical Affairs MSL team, orchestrates compliant medical affairs cross-function and thought leader collaboration, and serves as field subject matter expert on internal initiatives. Tam's team drives the execution of the strategic medical plan. Prior to joining the pharmaceutical industry, Tam spent 12 years in clinical practice, including hematology and oncology at City of Hope and establishing the role of the clinical pharmacist in thoracic transplant at the University of California Los Angeles with a prominent international presence. Tam's educational background includes a BS in Bioengineering from the Jacobs School of Engineering at the University of California San Diego and a Doctor of Pharmacy degree from the University of California San Francisco.

## **JONATHAN WANG, PHARMD**

### **Director, Global Medical**

### **Communications & Operations**

Joined in Sept 2022, Jonathan leads the strategic development, implementation, and execution of Global Medical Information, medical omnichannel engagement strategy, as well as support for various medical training and educational initiatives for BioCryst. Prior to his current role, Jonathan led Global Medical Information and Medical Competitive intelligence at Arena Pharmaceuticals, and assumed a variety of scientific communications roles in the Boston-Cambridge area, at Alexion and Biogen. Jonathan received his PharmD at the University of Pittsburgh and served as adjunct faculty and alumni mentor at the Massachusetts College of Pharmacy Health Sciences in Boston.

## **JENNIFER ALMEKINDER**

### **Executive Director, Global Publications & Medical Communications**

Jennifer joined BioCryst in September 2023, with primary responsibility for Publications and Medical Communications initiatives across the portfolio and pipeline. Prior to joining BioCryst, Jennifer spent eight years at Merz Pharma Group leading North America and Global Scientific Communications. Jennifer is a clinical scientist with experience in diverse therapeutic areas and obtained her degree from the University of North Carolina at Chapel Hill in Biology and Chemistry.

## EXPERIENCES

- Gain in-depth understanding of medical information operations, industry best practices, and applicable laws, regulations, and guidance documents
- Staff medical information booths at medical congresses
- Develop medical information resource documents including standard response letters (SRLs)
- Assist in the execution of strategic publication planning, including providing support for the development of posters, abstracts, oral presentations, and manuscripts
- Gain an understanding of and support the Investigator-Initiated Studies (IIS) process.
- Collaborate cross-functionally with medical affairs directors, medical science liaisons (MSLs), market research, marketing, safety, regulatory affairs, and many more.
- Contribute to tactical execution of the medical affairs strategic plan
- Gain exposure to the clinical development process

## ABOUT BIOCRYST

BioCryst is a commercial-stage biotech company that is committed to delivering extraordinary medicines that help patients live ordinary lives. At BioCryst, we are passionate about advancing novel therapeutics for patients with rare and serious diseases.

BioCryst's US headquarters are located in Durham, North Carolina, our European headquarters in Dublin, Ireland and our Discovery Center of Excellence in Birmingham, Alabama. With expertise in drug discovery, clinical development, and regulatory affairs, we are advancing clinical programs and generating new compounds from our own discovery engine.

We are proud of our culture of engagement and accountability that rewards people for innovative thinking and achievement of key objectives.

## PARTNERSHIP WITH IPhO

- The Fellow will be a member of the IPhO National Fellows Council (NFC), a diverse group of post-PharmD industry fellows representing all programs nationally.
- The Fellow will have opportunities to network and engage with IPhO leadership and other current industry pharmacists through the MentorMatch program.
- The NFC offers its members leadership roles for its committees, including Fellows Development, Professional Programming, and Student Development.
- The Fellow will gain teaching experience through industry-focused webinars for students.
- IPhO Fellows can work on professional publications in conjunction with an IPhO leader and/or other fellows from around the country

## **ELIGIBILITY**

- Doctor of Pharmacy degree (PharmD) from an ACPE-accredited college or university by the start of the fellowship
- Authorized to work in the United States on a permanent basis (no visa sponsorship available)
- Strong desire to work within the biopharmaceutical industry
- Excellent communication and collaboration skills
- Exhibits professional maturity, confidence, and competence

## **APPLICATION PROCESS:**

IPhO's Fellow Match is the initial application portal and the following are required:

- Curriculum Vitae (CV)
- Letter of intent
- Contact information for 3 references
- Interviews will be conducted on a rolling basis
- Letters from provided references may be requested
